

# Gain momentem™

Use your BlackBerry® to stay on top of billable hours and project costs.

Owners, managers and busy professionals are increasingly aware that not tracking time spent on calls or emails adds up to lost revenue. When you're out of the office, the task of allocating many costs to projects or clients often gets put off.

Be sure of billable hours and project costs right up to the minute. Tag time spent on calls, reading and answering email, attending meetings or any other expenses, and allocate them to specific clients or projects instantly using your BlackBerry®.

## ACCOUNT FOR YOUR TIME WHEREVER YOU ARE

It's possible with the momentem™ Expense Tracker from Redwood Technologies Inc., available exclusively with Rogers in Canada.

"This service suits any busy executive, because it lets you account for your time from wherever you are, whether it's for yourself or for your clients or customers" says Redwood president Terry Hughes.

## FROM ENTREPRENEURS... FOR ENTREPRENEURS

It's not surprising that momentem™ comes from Redwood, a company that understands entrepreneurs because it's an entrepreneurial company. Redwood recently made the "IDC 2009 Ten to Watch" list as one of the top 10 emerging Canadian companies offering mobile consumer and enterprise solutions.

So momentem™ is a service from entrepreneurs ... for entrepreneurs.

## IT'S INSTANTANEOUS AND EASY TO USE

momentem™ gives you full control. You create contact profiles and link them to projects and billing rates, and you specify the types of activities you wish to be prompted to tag, such as all calls lasting longer than 30 seconds.

Then, with a few clicks, use momentem™ to generate reports, organized by client, project or activity. You get more accurate billing, better cost recovery and provide better client service.

Add momentem™ to your Rogers Wireless data plan for only \$10 a month and your first month is free. Click the Rogers Mall/Apps icon on your device, or dial \*611 from your Rogers wireless phone. It takes just minutes to download and follow the simple setup instructions.

## THERE'S MORE!

### TeleNav Talks, You Drive!

TeleNav GPS Navigator gives you colour moving maps, hands-free voice directions, automatic rerouting if you miss a turn and a useful business directory – all on your BlackBerry®.
